***Chapter 1 ASP.NET 2.0 at a Glance*.....1**

<i>What's New in ASP.NET 2.0?</i>	<i>1</i>
New Controls	<i>2</i>
Master Pages	<i>4</i>
Site Navigation	<i>5</i>
User Management	<i>6</i>
Personalization	<i>7</i>
Themes/Skins	<i>8</i>
Mobile Devices	<i>10</i>
Site Counters	<i>11</i>
Configuration	<i>11</i>
Deployment	<i>12</i>
Summary	<i>13</i>
<i>What's New in C# 2.0?</i>	<i>13</i>
Generics	<i>14</i>
Iterators	<i>19</i>
Anonymous Methods	<i>22</i>
Partial Classes	<i>24</i>
<i>What's New in VB .NET?</i>	<i>25</i>
XML Documentation	<i>26</i>
Generics	<i>27</i>
Operator Overloading	<i>29</i>
Partial Classes	<i>31</i>
New Data Types	<i>32</i>
New Keywords	<i>32</i>

Chapter 2 Introducing VS .NET for Web Developers	33
Installing VS .NET	35
Creating and Opening Web Sites	35
Creating a New Web Site	36
Opening an Existing Web Site	38
Migrating an Existing VS .NET 2002/2003 Web Application	38
Editing Web Sites	39
Placing Server Controls	39
Editing Controls	41
Validating HTML Source Code	45
Creating Events Handlers	46
Using IntelliSense	48
Testing and Debugging	49
Code-Beside/Code Separation	51
Code Directory	53
Using the Code Directory	53
Multilanguage and Multitype Support	55
What Happened to the Bin Directory?	56
Precompilation	56
In-Place Precompilation	56
Precompilation for Deployment	57
Deploying Web Sites	58
Customizing the IDE	58
Summary	60
 Chapter 3 Enhanced Data Controls	 61
It's All About Data Sources	61
Available Data Source Controls	62
Using Data Source Controls	63
Introducing the New GridView Control	66
Displaying Data	67
Defining Fields	68
Using Templates	70
Deleting Data	72
Editing Data	74
Using Parameters	76
Caching Data	79
Enhancing Control Capabilities	80

<i>Introducing the New DetailsView Control</i>	81
Displaying, Editing, and Deleting Records	81
Inserting New Records	83
Working with Templates—Yes, You Can!	85
Combining GridView and DetailsView	86
<i>Introducing the New TreeView Control</i>	90
Using Static Data	90
Using XmlDataSource	92
Using Client-Side Population—You’ll Love It!	97
<i>Working with ObjectDataSource</i>	99
Displaying Business Objects	99
Using Parameters	103
Editing a SelectMethod and Deleting Business Objects	106
Adding Data to Business Objects	108
<i>Summary</i>	110
 <i>Chapter 4 Working with Master Pages</i>	111
<i>Creating a New Master Page</i>	111
<i>Creating a New Content Page</i>	113
<i>Using Multiple Content Regions and Default Content</i>	116
<i>Master Pages Under the Hood</i>	117
<i>Dynamically Using Master Pages</i>	118
<i>Accessing Master Page at Run Time</i>	120
<i>Nested Master Pages</i>	121
<i>Master Pages and User Controls</i>	123
<i>Summary</i>	126
 <i>Chapter 5 Integrating Site Navigation</i>	127
<i>Defining a Site Map</i>	127
<i>Using the TreeView Control for Navigation</i>	128
Creating a Split Navigation System	130
<i>Introducing Breadcrumb Navigation</i>	132
Customizing the SiteMapPath Control	133
<i>Using a Rich Dynamic HTML Menu Control</i>	134
<i>Working with the SiteMap API</i>	134
Accessing the Current Navigation Node	134
Using Custom Attributes	135
Enhancing the Provider Model	136
<i>Summary</i>	136

Chapter 6 Managing Users	137
<i>Setting Up User Management</i>	138
Using the ASP.NET Web Site Administration Tool	138
Setting Up the Web Site	143
Updating the Configuration	143
<i>Introducing the New Security Web Controls</i>	144
Login Control	145
PasswordRecovery Control	150
LoginStatus and LoginName Control	154
LoginView Control	154
And What About a CreateUser Control?	158
<i>Creating a Role-Based Navigation System</i>	158
<i>Managing Anonymous Users</i>	159
<i>Working with the Membership Management API</i>	160
Creating a New User	161
Validating and Accessing a User	164
Updating User Data	166
Changing a User's Password	169
Determining the Active User Count	170
<i>Working with the Role Management API</i>	171
Managing Roles	172
<i>Switching to SQL Server Providers</i>	174
<i>Creating Custom Providers</i>	176
<i>Summary</i>	176
 Chapter 7 Personalization	177
<i>Creating a Personalized Web Site</i>	177
Storing Data and Accessing the Profile	178
Gosh! But Where's the Profile Actually Stored?	180
Accessing Somebody Else's Profile	181
<i>Defining Advanced Personalization Properties</i>	181
Storing Base Types	181
Storing Complex Types	184
Storing Custom Types	188
<i>Using Personalization with Anonymous Users</i>	194
Activating Profile Properties for Anonymous Users	194
Migrating Anonymous Profiles to Authenticated Users	196
<i>Summary</i>	198

Chapter 8 Creating Portals with Web Parts	199
<i>Understanding Web Parts</i>	200
<i>Four Web Part Display Modes</i>	201
Introducing the New Personalization Controls	202
<i>Creating a Simple Web Parts Page</i>	204
Adding the WebPartManager Control	204
Adding Zones	205
Adding Web Parts	208
Customizing the Portal Page	211
Advanced Zone and Web Part Properties	212
<i>Adding Web Parts</i>	215
Adding Web Parts Formerly Removed from the Page	215
Adding New Web Parts	217
<i>Editing Web Parts</i>	219
Integrating Editors with Role Management	222
Creating Custom Editor Parts	222
<i>Custom Web Parts</i>	223
Creating a Custom Web Part	223
<i>Sharing Data with Connection Points</i>	225
<i>What to Expect Next?</i>	232
<i>Summary</i>	232
 Chapter 9 Applying Themes	 233
<i>Understanding Themes</i>	233
<i>Using Global Themes</i>	235
Applying Themes to a Whole Web Site	235
Applying Themes to a Web Site Area	237
Applying Themes to a Single Page	237
Themes Under the Hood	238
<i>Creating Themes</i>	239
Creating a New Web Site Theme	239
Using Cascading Style Sheets	241
Creating Different Control Themes Called Skins	243
Disabling Themes	244
<i>Using Themes with Personalization</i>	245
Using Client Callback	247
<i>Using Themes for Custom Controls</i>	249
<i>Summary</i>	250

Chapter 10 Tracking Traffic with Site Counters	251
<i>Using Site Counters</i>	251
Tracking Button Clicks	252
Creating a Site Counter Report	254
Tracking Hyperlink Clicks	255
Tracking Ads	256
<i>Using Page Counters</i>	258
<i>Introducing the Site Counter API</i>	259
Creating a Reports Page	260
Creating an Image Counter Control	261
Using Site Counters with Custom Controls	264
<i>Summary</i>	264
 Chapter 11 The Enhanced Page Framework and Cool New Controls	 265
<i>Any New Controls Not Mentioned Yet?</i>	265
BulletedList	265
DynamicImage	267
ImageMap	276
MultiView and View	278
Wizard	280
Panel	282
Pager	284
FileUpload	286
HiddenField	287
Substitution	288
TextBox	289
Control State	290
<i>Anything New for Validation Controls?</i>	290
<i>What's New to the Page Framework?</i>	292
New Page Events	293
Adding Headers	293
Setting Control Focus	294
Defining a Default Button	294
Accessing Validation Controls	296
The New Page.Items Dictionary	296
Using Cross-Page Posting	296
Setting Properties in the @Page Directive	300
Adding Default Namespaces	303

<i>What About Client Scripting?</i>	303
Client Scripting	304
Client Callback	304
<i>Caching and SQL Server Invalidation</i>	307
Configuring SQL Server Cache Invalidation	307
Using SQL Server Cache Invalidation with Data Source Controls	309
Using SQL Server Cache Invalidation Programmatically	310
Other Caching Enhancements	312
Using Page and Control Caching	313
<i>Summary</i>	314
 <i>Chapter 12 Going Mobile</i>	315
<i>Mobile Development ASP.NET 2.0 Style</i>	315
Adaptive Rendering in Action	315
One UI for Different Devices?	318
Device Filter	319
Browser Configuration	319
<i>Creating Mobile Web Sites</i>	320
Working with MultiView/View	321
Using the Pager Control	323
Making a Phone Call	326
<i>Summary</i>	327
 <i>Chapter 13 Configuration for Developers and Administrators</i>	329
<i>Web Application Administration</i>	329
<i>MMC Administration Tool</i>	331
<i>Configuration API</i>	333
Accessing Configuration	333
Updating Configuration	343
<i>Summary</i>	346
 <i>Chapter 14 Fun Pet Tricks</i>	347
<i>Fun Pet Trick #1: HTML Source Preservation</i>	347
<i>Fun Pet Trick #2: Selection Preservation on View Switch</i>	349
<i>Fun Pet Trick #3: Client-Side Script IntelliSense by Browser Type</i>	350

<i>Fun Pet Trick #4: The Code Directory (and Its Cross-Language Usage)</i>	351
<i>Fun Pet Trick #5: WSDL Files and the Code Directory</i>	353
<i>Fun Pet Trick #6: Precompilation of ASP.NET Applications</i>	355
<i>Fun Pet Trick #7: Creating a Thumbnail List in About 1 Minute</i>	357
<i>Fun Pet Trick #8: Implementing a Login System in Only 3 Minutes</i>	358
<i>Fun Pet Trick #9: Profile Object</i>	362
<i>Fun Pet Trick #10: Data Binding the New Bulleted List Control to an XML File</i>	364
<i>Fun Pet Trick #11: Data Binding to Generics</i>	365
 <i>Index</i>	 369
